## Lin Shan

Born in 1988, lives and works in Shenzhen, China.

She graduated from the China Academy of Art majoring in Fresco in 2012, and apprenticed with Carlo Di Raco for her master degree from the Venice Academy of Fine Arts in Painting in 2015. Lin Shan's works are concerned with prying into the realm of personal aspirations, interweaving characters and sceneries, while allowing subtle emotions to retreat into the darkness. The representations in the work are derived from the formation of "human" subject's desire and imagination. The artist cleverly employs the homogeneity of various forms of combinations to induce spiritual stimulation and empathy.
